

# **Discrete Mathematics, Fall 2019/20**

## **Midterms**

There will be two midterm exams. The first one is scheduled on November 26<sup>th</sup>, 2019, the second one on January 14<sup>th</sup>, 2020. The exams will consist of problems similar to the ones we solve during the classes. In order to pass, one should obtain at least 50% of the total number of points.

## **Extra points**

People who are active during classes and solve problems on the blackboard will be given extra points, up to 10% of the total number of points one can get from both midterms.

## **Homework**

You will be also asked to solve some of the problems at home and hand in written solutions. One can also get extra points for the homework, especially for the hard problems marked with (\*).

## **Absence**

If you cannot attend classes, please inform me immediately (eg. via email) and provide medical leave. You are allowed to miss at most three classes. If you cannot attend any of the midterms, you should inform me before the exam.
